NOVEL PIG RAISING PLAN IS PROPOSED

Rotary Club Endorses \$10 Loan Scheme Outlined by Craig.

Steps to provide boys and girls of Rock county, of 10-15 years of age, with pure bred pigs through a new method were taken by the Rotary club at noon, Tuesday, at the Grand hotel, following a talk by J. A. Craig. A plan is now being formulated where members of the Rotary club advance \$10 and a boy or girl draws a pure bred, registered gilt by allotment, the child advances directly with the city plan. The man who pays \$10 has the privilege at the end of a year of getting a pig from the child's litter or his money back. The five breeding associations of the county are to cooperate: the Durocs, Poland Chinas, Chester Whites, Berkshires and Hampshires. The Lions and Kiwanis clubs also are to take up the plan.

Value Is Threefold
When members of the Rotary club were asked to lend support, practically every one promised to buy a pig. The persons who advance the money are expected to make a trip at least once a month to see the boy or girl who procured the gilt they paid for. The child must exhibit his pig at the Janesville fair. Contracts would start in June.

Value of the plan, Mr. Craig explained, will be threefold. It will get the city men in closer contact with the boys and girls of the country. It will add to the raising of pure bred pigs in the county and to the reputation of the county for the production of high quality hogs.

It will start the lad in the breeding business.

Second in Country
Mr. Craig pointed out the idea was started at Rock, Ia., where 150 children have taken pigs. If put in to practice here, Rock will be the second county in the United States.

He referred to the success of the county Holstein club, saying it is the best in Wisconsin and one of the finest in the United States. Last year there were 40 applications and only 27 could be taken, not one of the calves dying. This year expectations are to develop the calf club to three times its present size.

The Rotary club observed the birthday of Ralph Harmon. It admitted John Mountain of Hayes, Fountain & Hayes, contractors, to membership.

PROSPECTS BRIGHTER FOR THE "WHITEFACES"

Walworth.—A spirit of optimism will prevail in the meeting of the Wisconsin Herford Breeders' Association to be held in Madison on Thursday, February 1.

C. W. Thompson, president of the organization predicts that the Herford breeding industry has passed the birth in the north and will progress rapidly from now on.

Secretary C. J. Schroeder, of Milwaukee county, is issuing the call for the meeting.

Newark Institute

Is Big Success

The farm institute program at Newark, which opened Tuesday and continued until Wednesday, attracted the entire rural family. There was something interesting to the farmer, his wife and his children. Consequently there were more than 100 attending the program during the day and the hall was packed during the evening when an interesting school program was staged under the direction of a committee headed by Miss Lucille Hanson, chairman.

For the farmer wife there was an instructive hour of lecturing and demonstrations conducted by Mrs. C. M. Slagge, Madison, on cooking and house management.

For the farmer there were lectures, one dealing with the marketing of fluid milk given by L. E. Pennwell, a local expert on the subject. Mr. Pennwell, Madison, and by County Agent R. T. Glusac.

For the farm juniors there was a contest, novel in character, that delighted everyone.

The farm institute will open in Footville, Thursday, and continue until Friday night.

BEEKEEPERS TO MEET

L. P. Whitehead and C. D. Adams, Madison, will conduct an all-day beekeepers' school in the court house, Janesville, Feb. 2. All beekeepers are invited to attend this meeting which will start at nine o'clock in the morning and continue until four in the afternoon. Whitehead is in charge of the bee department of the College of Agriculture extension service and Adams chief state apiary inspector at the college.

The officers for the Rock county beekeepers' association will be elected at this meeting and methods considered to have better honey containers, better grades and labels.

MEETING IN EKAHORN

L. J. Graber, Madison, will speak on "Alfalfa Growing" at a meeting to be held in Clinton Saturday, Jan. 27 at 2 p. m. in the town hall. George Hull, president of the Rock county Farm Bureau, will also speak. H. O. Natessta will preside at the meeting.

County Road Men to State School

Business in the highway department of Rock county will be at a standstill this week while the force attends the annual road school being conducted by the Wisconsin Highway commission at Madison. Olaf F. Johnson, county highway engineer, is in attendance, and County Highway Commissioner Charles E. Moore, Frank Lee, William Smith and Charles Onsgard plan to attend sessions Wednesday, Thursday and Friday. Mr. Moore being confined to his home Tuesday, being ill. Dennis McCarthy of the county highway committee will attend.

The annual meeting of the Wisconsin Good Roads Association will be held at Madison Wednesday night. Friday the annual meeting of the county highway commissioners' association will be held.

HILL FEEDING IS THROWN TO DISCARD

The practice of making corn grow by adding fertilizer to each hill in back with Wisconsin farmers. Although our Pilgrim forefathers found Indians burying fish in the hills, the practice has since been followed by the "halfpence." It has been forced into the discard.

"The soil is benefited more generally by the broadcast of the fertilizer than from hill application," says A. R. Whitson, head of the soils department of the Wisconsin college of agriculture. "Wisconsin farmers are finding that the cheapest way in the long run to add nitrogen to their soils is by the growing of leguminous crops. Nitrogen, the most expensive element to purchase, is thus added to their soils free of charge."

"The addition of fertilizer to the corn hill is of little value to the crops of clover which succeed corn," says Whitson. "This application apparently gives the corn a quick start, but final results indicate little difference in the yield of the corn. But when phosphates and lime which are needed are added for the grain and clover, the nitrogen gets to the corn through the manure which is the best fertilizer for that crop."

According to Whitson, phosphorus and lime are the chief elements required for the fertilization of leguminous crops. By broadcasting fertilizers rich in these elements Wisconsin farmers will get the best results in the fertilization of their soils.

BREEDERS SOLIDLY BEHIND STATE PLAN

Madison.—Officials of the Wisconsin Holstein-Friesian Breeders' Association have set aside Thursday, February 1, for special conferences with Holstein breeders when they gather at Agricultural Hall to attend sessions of the Merchandising conference.

The members of this organization are keenly interested in the statewide plan which is being formulated for the merchandising of the products of Wisconsin dairy farms. Herbert

Schroeder, Washington county, and president of the state association, has been prominently identified for many years with movements looking toward the better marketing of milk and milk products. He sees in the forthcoming conference possibilities for the development of a state-wide program which will be of lasting value to Wisconsin dairy interests and the entire commonwealth as well.

SEES GREATER FARM PROSPERITY AHEAD

Madison.—A new day is dawning in Wisconsin. When farmers, bankers and newspaper men gather here January 29 to February 3, a plan will be developed for the merchandising of Wisconsin farm products.

L. G. Rosler of the state department of markets believes that cooperation is the keynote of the situation. He is convinced that the farmer must merchandise more of his own products by an adequately managed, well-planned, properly organized commodity group, if he is to see the new dawn.

One of the points in successful merchandising which Rosler particularly emphasizes is that farm products should be sold as the consumer wants them and not as they are produced. This, he contends, can be accomplished through good management of a commodity organization.

A quality product, well named, is another essential in the opinion of this "badger" marketing expert. The product must first be rigidly standardized and then maintained on the same level.

PLAN COUNTY SALE

Preliminary arrangements are being made for a series of county sales in southern Wisconsin this spring at which quality Holsteins will be offered. Three counties have been lined-up under the circuit scheme whereby the counties pool their advertising and agree on dates.

The tentative schedule is for a sale in Walworth county on April 30, in Rock county May 1 and in Green county May 2 and 3.

The Rock county sale committee is making an early start and concentrating efforts to secure at least 70 head of top quality registered Holsteins.

HOLSTEIN MEETINGS
There will be a group meeting for Holstein breeders in Janesville Saturday, Jan. 27, to be held in the court house. The county association held a meeting in Milton Junction Wednesday afternoon. The last group meeting held in Evansville Saturday, was well attended and active interest evident in the county Holstein development program.

100 WAYS To Make Money

By BILLY WINNER

If I Could Make Candles—

FANCY candles—hand-made—are in demand by particular people with nicely furnished homes. Therefore, I would make candles to order, candles to match the color scheme and decorative plan of the room.

I could market my candles direct to the home or through gift shops.

I would advertise them—tell people why my candles were better than the ordinary. The quickest and most economical way of doing this would be with Gazette Want Ads.

Willard

Battery Service Station

Changes Its Location to 19 N. Bluff St.

We, the Auto Sales and Accessory Station, W. F. Marsche, proprietor, at 19 N. Bluff St. wish to announce that we have taken over the Willard Battery Service Station contract, and have also retained the services of Mr. Gifford, whom we all know to be a Battery Expert.

Mr. Gifford will have complete charge of our battery department. We aim to please our customers, not only in the battery line, but along other lines as well, such as:

ACCESSORIES
 We carry nothing but the best goods that can be bought.

OIL
 We handle GARGOYLE MOBILE OIL exclusively and when you order a quart of oil you get what our large red sign calls for—GARGOYLE MOBILE OIL—as we don't have any other oil in our back room.

GASOLINE
 We will challenge any dealer in the city in an official test and if there is any better gasoline to be had we will have it. Our gasoline is guaranteed by the VALVOLINE OIL COMPANY of Chicago to be strictly Straight Run, and is not blended with Naptha to give it a "kick" in cold weather.

TIRES
 McClaren "AUTOCORAT" Cord Tires are known to be the best tires built, and we will make a satisfactory adjustment at 20,000 miles or Mr. McClaren Cord Tire purchased at our place. MR. R. B. TOWNSEND of 1123 Oakland at Janesville, has driven two of these tires 20,000 miles and says that they are still good for 5,000 more. Try one of these tires and convince yourself. We have handled them for one year and to date we have not had a single tire back for adjustment.

We have also purchased a Curtis High Pressure Air Pump and in the near future we will have it installed in front of our place as an extra service for the convenience of our customers, to enable them to get the best of service there is to be had, at the

Furnishers of Beautiful Homes For Less

Put it to the severest tests you can think of

Experts in Domestic Science will
convince you about Mazola

OUR expert food lecturer, Miss Elsie Hinkley, will be at Gazette Cooking School today and tomorrow. Step in and let her prove to you the remarkable facts about Mazola. You could not spend an hour more profitably. Women's clubs, teachers' organizations, and high school domestic science classes are especially invited. Bring pad and pencil and take notes during the lecture.

For many years you have been hearing about the remarkable economy of Mazola—how it can be used for every cooking and salad purpose. More than seven million American women have proved, over and over again, that Mazola is richer and much more economical than butter in shortening for cake, pie crust and pastry. For Mazola is a 100% pure vegetable oil, and contains absolutely no water—as do butter and lard.

It is better than lard or ordinary cooking fats. Mazola never takes up flavors or odors—nor carries flavors or odors from one food to another. This is because it is heated to a higher temperature without smoking or burning than other cooking fats that the surfaces of the food are crusted over, and the rich juices are kept in.

This is why Mazola can be used over and over—until the last drop is gone—even after frying fish or onions. All you have to do is to strain it. Then you can use it for shortening the most delicate cake.

Many Italian and French people, who know the taste of good salad oil, prefer Mazola, even to the highest priced imported olive oil—it is so sweet and wholesome.

THE TIME HAS COME

You're about to read of the greatest decision the owners of this store have ever made. It's a decision without precedent—it's a decision that has taken all our courage. The newspapers have been pretty well filled up of late with ads of winter clearings of retailers' odd lots and factory disposals of lots of merchandise that is hard to sell.

Here is a sale that is not a winter clearaway, that is not a distribution of bargain lot, that is not an overlot of any factory with an overproduction of unpopular styles, but a sale that is a sweeping reduction of our entire stock. A sale that provides opportunity for thousands of customers to buy the seasonable merchandise that has been their favorite brands for years at virtually away less than the ruling market prices. A sale that includes all shoes recognized in fashion and good sense. A sale that is almost an asset to this city—In fact, it's a \$25,000 sale of the very best shoes in America. It includes our entire stock.

Signed,

D. J. LUBY CO.,

Two hundred calls an hour couldn't worry her now, declares Miss Jessie Hodges, of Honok, Va.

"When Tanlac brought me such quick relief I could have shouted for joy," declared Miss Jessie Hodges, popular young telephone operator of Honok, Va., residing at 1231 Jamison Ave., S. C. "I was in bed six weeks with flu, and it left me dreadfully run-down and suffering so with indigestion, everything I ate caused awful pains and I felt I could hardly breathe. My weight, my nerves were unstrung, and I thought I never would get well. But four bottles of Tanlac gave me a wonderful appetite and built me up until I feel so strong that two hundred calls an hour couldn't rattle me. I feel much improved in every way and can't say too much for Tanlac. Tanlac is sold by all good drug stores. Over 35-million bottles sold. Advertisement.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have. Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. They will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, swollen neck, dull eyes, pimples, constipation, headache, a listless, no-good feeling, all out of sorts, inactive, or you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit, 15c and 30c. Advertisement.

Death Was Expected At Any Moment

From the little town of Audra, Indiana, Mr. B. C. Bredley writes an interesting testimonial on the wonderful restorative powers of Dodd's Kidney Pills. He says: "In the year 1905 I was very low with a severe attack of kidney trouble. Three noted physicians had given me up, expecting death at any moment, but I lingered for months, until one day I found an old Dodd's Almanac which described symptoms exactly as mine. I then procured a box of your pills, took a double dose and the second day actually felt relieved. After a week I felt so good that I was glad to be alive. I continued using them, and they cured me. This was years ago and I can truthfully say I have never yet been laid up with the same disease. A severe attack of 'flu' last winter affected my kidneys, so I bought three boxes of your pills and used them for my whole family with the same good results. Large box 60c. Mail order you get DODD'S (three D's in the name). Prompt relief or your money back. If your dealer's supply happens to be out, send 60c in stamps to DODD'S MEDICINE CO. 300 Main St., Buffalo, N. Y.

Walworth County

ELKHORN

County Seat News.
MRS. GRANT HARRINGTON.
Telephone 35.

Elkhorn — The January meeting of the Walworth county board of supervisors, opened in the court house Tuesday afternoon and was called to order by John V. Seymour, Lake Geneva, chairman. All members, except Albert Hollister, Denmark, and N. H. Laffayette, were present. The session was devoted largely to reports of committees, county officers and the audit made first of 1923, by the state tax commission. The high way commission report showed \$795,400.19 expended in 1922 with an unexpended balance of \$548,234.44. George H. Kelley, clerk of the county, reported \$2,811.42 received in fees, while the Register of Deeds' fees amounted to \$4,329.45. The county clerk turned in \$54.20 in fees, 75 which was for 150 marriage licenses. The soldiers' relief committee expended \$2,145.54 in 1922 while the superintendent of the poor spent \$4,801.40 for outside relief.

The afternoon session was devoted largely to the question of apportioning money to the city of Elkhorn to assist in paying the tax on the matter was finally withdrawn. Judge Lyon spoke to the board relative to a fund for the prosecution of criminal work in the county and the care of orphaned children. Resolutions were offered appropriating \$1,000 for the former and \$500 for the latter. Supervisor Rowetham offered a resolution calling on the legislature for more adequate laws regulating dance halls. The board adjourned until 10:30 Wednesday morning.

George Campbell Janney, Jr., Kenosha, Ill., and Grace Velva Pemberton, Delavan, have applied for a marriage license to wed in Milwaukee next month. The Rev. Robt. Basil Stansell will officiate.

The executive committee of the Walworth County Farm Bureau held a long conference in the court house Monday afternoon, conducted by President George W. Hull. It was decided to put on a drive for membership and there was a general talking over legislative matters that are to come up at Madison during this session of the legislature. The members will hold meetings in as many townships as possible next Monday night, Jan. 29 to get a general understanding of the work that will affect farmers.

"Farmers week" at the Capital city begins next Monday, Jan. 29. Many Walworth county men are arranging to attend as leaders promoting this movement will bring the press and farmer in closer relationship. John Kuypers, president of Wisconsin Press association, refers to it as "the farmers' way out."

KIWANIS ENRICHES CHILDREN'S LIVES

Handicapped Helped to Become Normal Through Club's New Policy.

There are several children in Janesville whose aspirations of some day becoming good citizens like their fathers and mothers who have felt the helping hand of the Janesville Kiwanis club in the past year in removing handicaps which have marred their chances of success.

Quietly and unostentatiously the welfare work is being carried on by the club in correcting physical defects and in other ways lending assistance. The local organization is thereby helping Janesville for a town is no better than its citizenship.

What has been done up to Jan. 1, 1923 by the club through its welfare committee was outlined by Dr. Thomas J. Snodgrass, chairman at the anniversary meeting, Thursday. The work of the club, Dr. Snodgrass showed, is being carried out along the lines of the program adopted by the Kiwanis International, which says care of the underprivileged child shall be paramount.

How Plan Works.
"When the Kiwanians take a child under their care, and particularly the boys, they consider themselves trustees to that boy's success," said Dr. Snodgrass, outlining the program of the International organization. "They work to help make him a good citizen. In this work the personal touch is very important and also securing the cooperation of the persons who have contact, his parents, guardians, school teachers, the Y. M. C. A. and other organizations. It is necessary to get the boy's friends. Each boy is then examined by a competent physician and to correct any wrong tendency that may be found."

"We want to impress the boys with the necessity to lead a clean life on account of their health. Not only are physical ailments corrected and looked after but the club provides proper clothing and food and give them an opportunity to join organizations, such as the Y. M. C. A. save, to teach them self reliance and independence and to assist them in choosing a vocation and to follow their development through to a successful conclusion."

"The cripple is the most underprivileged child in school and to such an extent that he feels it, more so than others who are handicapped," said Dr. Snodgrass. "The only way to overcome it is through a greater development of mentality. To make professional men out of them instead of following some menial vocation."

Clinic Is Part of Work.
With the establishment of the dispensary by the Mercy hospital staff, on which all the physicians who are cooperating with the Kiwanis organization in the medical side of their welfare work, much of this is now being done at the hospital. Expense for braces, glasses and other corrective devices and appliances will be borne by the Kiwanis club.

Up to Jan. 1, the welfare work of the Kiwanis club had benefited among others the following cases:
One child whose limbs had been hurt in an accident had been provided with a brace. More than a year of corrective work has been done so that the child's disability has largely been overcome. The child who was out of school is now back. He was given a complete physical examination and was found to be needing glasses which were provided. The family was not in a position to properly care for him.

trouble will be corrected—eventually.

Several dental cases have been cared for and X-ray work done. One case of a boy requiring attention was referred to the Beloit Kiwanis club.

\$125 Spent in Month.
During December alone, \$125 was expended by the Kiwanis club for welfare work and the \$300 realized from the three day performance of the minstrel show will probably all be spent during 1923. A good part of it will go toward providing recreation, an essential part of the work. A complete history of each case is kept so that the committee and physicians are in touch with what has been done at all times.

What the work of the club means to Janesville may well be realized by the work done during the first year.

FUND SETTLEMENT WITH BRITISH SEEN

Little Doubt of Satisfactory Agreement in War Debt Negotiations.

By DAVID LAWRENCE Copyright, 1923, by Janesville Daily Gazette.

Washington. The administration fully expects to submit to the present session of congress a recommendation of settlement of the war debt of five billion war debt owed by Great Britain to the United States. The British mission which sailed from New York last week will reach home Friday, and a cabinet meeting will be scheduled for Saturday, and a few days later, Ambassador Harvey will transmit the decision of the British. No doubt exists in the minds of government officials here, who handled the matter, that a satisfactory agreement will be reached.

This information clears the air of the many rumors and speculations which have followed the departure of the British mission, rumors which conveyed the idea of a deadlock as well as indefinite delay. The reasons of their own the American government and British mission made no statement of expectations when the sessions adjourned. This was partly out of deference to the British cabinet, which must ratify the action, and partly because there are still some details which must be settled in London.

Harvey Knows ropes. Ambassador Harvey is thoroughly familiar with the situation and will negotiate these details. In fact it is now definitely known that he came here when the British debt mission was negotiating with the American funding commission and only incidentally to give his viewpoint on the negotiation controversy.

The exact nature of the agreement which will be reached will not be known until after the British cabinet meets, but there is every expectation here that the British mission will recommend to the cabinet the major principles which were asserted in the conference here, thus raising to the point of the debt and the modification of the interest rate.

Congress Must Ratify. Congress also has the power to ratify the agreement for the American government and the administration will want the present funding act modified not only to permit more ability in the handling of the British debt but negotiation of a settlement of all the other debts. The formula followed in the case of Great Britain will be precedent for other debts, but this does not mean necessarily that other countries will get the same terms. It does mean that the funding commission will probably seek to have the limits of its authority broadened so that it may have more flexibility. This is essential, the administration believes, irrespective of the capacity of Britain to pay and irrespective of what the future may hold in store for the other countries which owe America money and which have not yet made known their wishes as to funding of principal and interest.

Secretary Mellon is hopeful that the settlement of the British debt will have a beneficial influence on the international business situation, clearing away the uncertainties which have surrounded the question of British credit because of these undetermined obligations. Congress is to adjourn automatically on March 4 next. There has been an impression in many quarters that the debt question would hang over for action in the future and that adjournment would be decided between now and March 4. The administration is anxious, however, to get action at this session, believing that the matter cannot be indefinitely delayed. President Harding's recent letter to Senator Lodge pointed out that instead of passing resolutions for the calling of an economic conference more could be done toward the stabilization of the economic situation in the world by giving the American funding commission broader powers to negotiate a settlement of war debts which have hung like a cloud on the foreign exchange and credit situations ever since the war.

When the British mission left Washington last week they carried away definite impressions of what the United States government could do and what it could not do. Under circumstances it is sure to say "tentative agreement" was reached. Strictly speaking, the American funding commission didn't have any right to make a tentative agreement or any other kind of an agreement which differed in the least from the specific authority granted to the American mission by act of congress. To have reached one agreement with the British which anticipated a change of the present law by congress would have been subject to the possible criticism of anticipating the action of congress and would have put the American mission in the position of violating the spirit of the American mission irrespective of whether it is a good law or a bad one.

The British were given to understand that as soon as they reached a decision in their cabinet meeting and communicated the results to Ambassador Harvey in formal fashion, the American funding commission would recommend through President Harding that congress accept the proposal. It is virtually an American proposal, but this roundabout way is really necessary to preserve the amenities of the situation and prevent criticism in congress.

JEFFERSON

Jefferson. Miss Martha Preussler, Milwaukee, who is conducting a dancing school here, entertained the members of her classes, together with a few others, totaling about 60, at a masquerade ball, at the Jefferson amusement parlour. After careful deliberation, the judges, Mr. and Mrs. E. Sanborn and Mr. and Mrs. Frederick Bullwinkle, decided John Williams, the best girl's original costume; Mrs. Ray Scholger, the best woman character; Carl Seifert, the best man's character; and Miss Evelyn Smith, best girl's original costume. The Hungarian and Spanish gypsies, the Misses Gertrude and Marie Schoeneman, Irma Miller and Fern Fernald, represented the best group. Mrs. Frank Stoppach entertained at a 6 o'clock dinner and bridge party, Monday, at her home, in honor of Mrs. Fred Wolf. Prizes were awarded to Mrs. William Klippert, Miss Ruth Grimm, and Mrs. R. Ritchie. The following guests attended: Misses E. J. Sanborn, E. C. Hager, Fred Bullwinkle, O. T. Haberman, William Klippert, F. H. George Klippert, Fred Wolf and J. C. ARE WOMEN OVERWORKED

Yes, hundreds of thousands of them are. This applies to the housewife and mother who struggles on a small income to make both ends meet by doing all the washing, ironing, cooking, making and mending for a large family. There are others who not only support themselves but also work in stores, shops, stores and offices, but often have an invalid father or mother to support, the doctor bills are heavy, and these are the women who break down early and are afflicted with various forms of female weakness. Ninety-eight out of every 100 women who have tried Lydia E. Pinkham's Vegetable Compound have proved that it is a successful remedy for women's ills. For nearly fifty years it has been helping women to health, and it will pay every illing woman to try it. Advertisement.

Restaurant Man Didn't Eat His Own Food

"It's pretty tough for a restaurant man to have stomach trouble. My customers were always telling me I ought to eat in a good restaurant. The fact was I couldn't eat a thing that didn't blow me up and no medicine or doctors helped me. I tried May's Wonderful Remedy, and I assure you I didn't have to look any further. Since taking it I have been a well man." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. People's Drug Co. and Druggists everywhere. Advertisement.

Loosen Up That Cold With Musterole

Have Musterole handy when a cold starts. It has all the advantages of grandmother's mustard plaster without the blister. You just apply it with the fingers. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief. Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, croup, asthma, neuralgia, congestion, pains and aches of the back or joints, sore muscles, sprains, bruises, chilblains, frost-bitten feet, colds of the chest. It may prevent pneumonia and "flu." 35c and 65c, jars and tubes. Better than a mustard plaster.

Built to Master a Mountain!

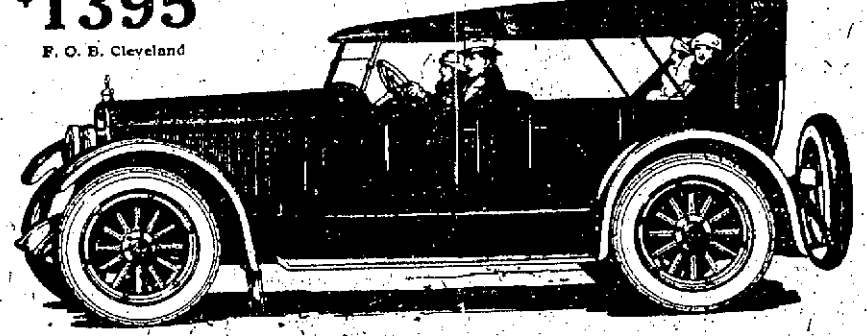

New Motor Has Power for Any Hill or Pull

No Knock, "Ping" or Vibration at Any Speed

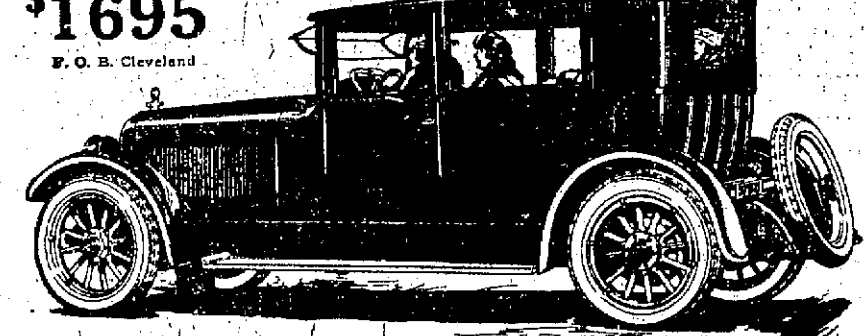

PIKES PEAK MOTOR

Touring Car \$1395 F. O. B. Cleveland

The ultimate blend of all that is desirable in the car at a price that is surprisingly low. Deepened seats, refreshingly long, low, graceful lines. A masterful performer on any road.

Five Passenger Chummy Sedan \$1695 F. O. B. Cleveland

An entirely new type of five passenger closed car, priced for those who desire genuine closed car durability and comfort at almost open car cost. Body by Fisher, richly appointed. Exceptionally dignified and spacious.

A PHENOMENAL new motor that was built to a mountain's specifications in order to assure rugged strength, limitless power and a commanding margin of safety, is the outstanding feature of the 1923 Chandler car.

This motor earned its name, for it had to prove its capacity when pitted against the strains of Pikes Peak, the world's loftiest automobile highway, whose summit is 14,000 feet above the sea.

New Low Prices Complete the Triumph!

The Pikes Peak tests proved that perfect combustion under the widest range of atmospheric conditions had finally been achieved;

—that the steepest grades could be ascended in a swift, smooth, silent advance;

—that instant throttle response had been obtained even with low grade fuels;

—that the so called "ping" or spark knock of pre-ignition had been utterly eliminated regardless of carbon;

—that vibration, pounding, bucking, skipping on any grade had been overcome.

This new Chandler was built, without regard to cost, to get the best.

Four open and four closed body styles have been carried to a new perfection.

An increase in price could readily have been justified, for the motor is a much more expensive design.

But Chandler production skill has matched Chandler engineering genius, and despite the advance in quality, there are new low prices on all models.

The result is a value without precedent, a value that can be proved by performance.
